

Welcome to Class two- newsletter for Autumn 2020.

Welcome to Sofia and Dylan who are joining us this term and welcome to the new year 3 and 4 pupils who we already know.

This term our history topic is about the Viking raiders and traders who invaded Britain between 790 and 1066. We will be linking our core texts for English with the history and finding out why the Vikings invaded Britain and who they were. We will also be reading some traditional Viking stories and creating our own Norse story. There will be lots of grammar and comprehension lessons and we will catch up with our learning where we need to.

In maths following some initial assessments we will be working on place value at various levels and then moving onto how that place value helps us with addition and subtractions. There will also be lots of problems and real-life elements to solve along the way with practical tasks and story maths.

Our science this term is all about electricity and we will be making electrical circuits and linking this with our DT project to make a model light house or model house that lights up.

Please could you save any empty Pringle pots for this project.

In Geography, we will be finding out all about the location of the continents of the world, the capital cities and the features such as the location of the longest river, the highest mountain, the tropics and the equator, and discovering some of the key features of these countries. We will be using Google earth and lots of maps.

We will also be including computing, music, French and RE and you can see from the attached overview what we will be studying.

P.E will be daily and children will only need their trainers initially.

I am really looking forward to welcoming everyone back and getting used to our new normal, I am sure we will quickly adapt to our changed routine.

If you have any questions about any of this please use class dojo to message me initially, and if we need to meet we can arrange that after school in a safe socially distanced way.

Kind regards

Kate Slocombe and Amanda Mayhew.
