

P.E Mission Statement

Our PE curriculum will meet the needs of all pupils, enabling them all to become successful learners, confident individuals and responsible citizens. Pupils will value themselves and their curriculum to inspire them into lifelong participation in sport and a healthy active lifestyle. A successful PE curriculum will focus on what pupils can achieve and enable them to reach their full potential.

Physical education will provide a challenging personalised experience that enables young people to experience success and enjoyment. The ability to value themselves will equip young people with the maturation to participate in physical activity for life.
